

### *f* pinfa membership is expanding

**15 April 2010** – pinfa is happy to announce the expansion of its membership. The association was originally established a year ago by six companies (BASF (Ciba), Budenheim, Clariant, Italmatch, Lanxess and Nabaltec). Today membership has more than doubled to 14 members. Two recent newcomers are DSM Engineering Plastics and Adeka Palmarole SAS.

Interest in pinfa continues to grow, demonstrating the need to organize the interests of non-halogenated FR manufacturers and users into such a group.

pinfa members share a common goal: offering environmentally-friendly fire safety solutions.

The full list of members is shown below and is also accessible at <http://www.pinfa.eu/about-us/members>.

For more information on membership, please contact:

Brigitte Dero, pinfa Secretary General
