

Operating Rules

Approved by the General Assembly on November 20, 2023

Preamble

The European producers of non-halogenated phosphorus, inorganic and nitrogen (PIN) flame retardants (FRs) have decided to found a Sector Group which shall be called the Phosphorus, Inorganic & Nitrogen Flame Retardants Association (PINFA).

PINFA shall be a Sector Group of Cefic (European Chemical Industry Council) under Article 63 of the Statutes and 12 of the Internal Rules of Cefic. Through its affiliation to Cefic, PINFA undertakes to comply with the general policies of Cefic and with the rules governing its activities, particularly in the field of competition law and environmental protection. Membership to PINFA is not limited to European companies.

PINFA shall operate in accordance with the following Operating Rules:

TITLE, HEAD OFFICE, OBJECTIVES, DURATION

Article 1 - formation of PINFA

A non-profit international Sector Group shall be formed, entitled The Phosphorus, Inorganic & Nitrogen Flame Retardants Association, in abbreviated form: PINFA.

PINFA shall operate as a Cefic Sector Group, in accordance with Article 63 of the Cefic Statutes and 12 of the Internal Rules. The Sector Group and the present Operating Rules shall be governed by Belgian Law.

Article 2 – seat

The seat of the Sector Group shall be at the same location as Cefic Head Office; it is at present situated at 40 Rue Belliard, Box 15, 1040 Brussels, Belgium.

Article 3 - objectives

Vision

- ◆ PINFA Members provide products which ensure that many everyday products are safe to use. The members of PINFA believe that their products form an essential part of environmentally compatible fire safety solutions.
- ◆ PINFA supports high fire safety standards across the world, standards which minimize the risk of fire to the general public.
- ◆ Flame retardants have to be compatible with the requirements of a sustainable and circular economy.
- ◆ Members of pinfa share the common vision of continuously improving the environmental and health profile of their flame retardant products and demonstrating their safety. They share the common concept of an ideal flame retardant as one which:
 - is not toxic to humans, animals and plants
 - does not migrate out of finished products
 - does not release additional toxic or corrosive gases in case of fire
 - does not impede the recycling of finished articles

- is either degradable in the environment or remains neutral as naturally occurring substances

Mission

PINFA shall be a forum for producers and other members of the value chain to promote the use of PIN FRs, deliberate the issues faced by the industry and to respond appropriately. The main objectives of the Sector Group shall be the following:

- ◆ To co-operate with members of the value chain including industry organisations involved in the use of non-halogenated phosphorus, inorganic and nitrogen flame retardants to communicate the advantages and appropriate use of this technology.
- ◆ To co-operate with national and supranational organisations, particularly with institutions of the EU, OECD and the United Nations as well as other industry associations, consumer organisations and organisations of the civil society involved in corresponding issues. This includes actively contributing to policies and regulations related to flame retardants.
- ◆ To support the development of scientific knowledge related to the whole life cycle of PIN flame retardants.
- ◆ Pro-actively provide information and data on its PIN flame retardants related to environmental and health properties as well as life cycle information

The views of the Sector Group may be transmitted through Cefic or through pinfa's own activities with the support of Cefic staff to the European Commission, the other European Institutions and other international or national bodies, particularly in cases where essential issues are involved.

Activities of the Sector Group carried out with the objective of directly or indirectly influencing the formulation or implementation of policy and the decision-making processes of the EU institutions will be covered by the registration of Cefic into the EU Transparency Register (n° 64879142323-90).

Article 4 - representation of PINFA by members

It is accepted that there will be occasions when an individual member will be at a meeting or event and present themselves as representing PINFA rather than the company for which they work. The individual member should accept that to represent PINFA is a special privilege and in these circumstances, they should adhere to Cefic Rules on Advocacy, Transparency, including Environmental and Health Communication (see Annex I).

Article 5 - rules and policies

The objectives and activities of the Sector Group shall at all times comply with the applicable laws of the European Union, its Member States and other jurisdictions when applicable.
